Work Experience

Media144 – Technician

April 2022 – May 2025

- Installed and configured advanced security systems, cameras, and access control solutions in both residential and commercial settings, ensuring optimal functionality and customer satisfaction.
- Provided exceptional customer service and technical support, quickly diagnosing and resolving issues, while educating clients on system operations and maintenance.

LayerZero Power Systems – Cyber Security Intern

May 2025 – August 2025

- Network Monitoring: Engineered a multi-site status monitoring system using Raspberry Pi units to track VPN connectivity, ISP uptime, and environmental factors (HVAC/Power) across three corporate buildings.
- Identity & Access Management: Enhanced departmental security by auditing the testing department's authentication protocols; successfully migrated staff from shared "Admin" accounts to individual, role-based credentials.

Activities

3D Printing

2022 – Present

- Designing files to print.
- Maintenance of the printers.
